

100:1 BNC test probe 2KV 100MHz bandwidth high voltage oscilloscope probe

Universal 100:1 high-voltage oscilloscope probe

Specifications:

- 100:1 attenuation
- Input resistance of 100 megohms
- Input capacitance of 6 pF
- Compensation range: 10 - 35 pF
- Bandwidth: 100 MHz
- Rise time: 3.5 ns
- Maximum operating voltage: 2 KV (Vp-p)
- Length: 1.2 meters

Package includes:

- 1 x Probe
- 4 x Color ring
- 1 x User manual
